

AMENDMENTS TO SPECIFICATION

Please replace the specification with the attached clean specification. A marked version of the substitute specification per 37 C.F.R. § 1.125 is also provided.

Amendment to the Specification

The specification of the instant application is amended to incorporate the sequence listing, filename "08-350-WO-US_SeqList.txt" (56,000 bytes in size on disk, created on June 3, 2008), submitted electronically on June 13, 2008. Applicants submit that the sequences submitted in the sequence listing do not add new matter, and support for the sequences can be found in the specification as originally filed. Specifically, support of sequences can be found through out the specification, for example, in the originally sequence listing, on pages filed specification on pages 4, 8, 10-11, 29, 34-35, 51 and in originally submitted claims.
